

Item number: 3508 **Sandwich tray 180 x 68 x 80 mm for 3 slices with lid, clear PET**

Material composition: R-APET - Amorphous polyethylene terephthalate
(Virgin PET / production scrap with at least 50% PCW PET / virgin PET)

Instructions for correct use
(It is always recommended to carry out your own quality test for the intended application.)

Food contact:
All types of food

Contact temperature/time:

Min. -40°C Max. 60°C

+5°C		+25°C	+65°C	+70-100°C	+200-350°C	
Freezing ✓	Chilled ✓	Room temperature ✓	Keep warm	Hot-fill *	Microwave	Conventional oven

Up to 40°C / no time limit; up to 60°C / max. 2 hours

Note:
Do not use in an oven or microwave oven

Additional information

Store between 5-25°C and at a maximum of 70% RH

Compliance

The product complies with EU Regulations 1935/2004/EC and 2023/2006/EC, Danish Executive Order No. 681 of 25 May 2020 and, for plastic products, EU Regulation 10/2011/EC.

In accordance with EU Regulation 2024/3190/EU (bisphenol A (BPA) and other bisphenols and bisphenol derivatives), and EU 2025/40 (PPWR), Article 5 on heavy metals and PFAS.

The product is classified as packaging: ☒

The product is classified as packaging and complies with EU Directive 94/62/EC, as amended, and the limit of 100 ppm by weight (total concentration of lead, cadmium, mercury and hexavalent chromium).

The product is classified as an "article" under EU Regulation 1907/2006/EC (REACH), Chapter 2, Article 3, point 3, and contains no SVHC substances in quantities above 0.01%.

Test information

Overall migration test: ☒ Complies with the limit of 60 mg/kg or 10 mg/dm²

Surface area-to-volume ratio: 6 dm²/kg

The product has been migration-tested using the simulants, times and temperatures below. Under these test conditions, overall migration does not exceed 10 mg/dm² or 60 mg/kg.

Simulant A (10% ethanol) - OM2 - 10 days / 40°C. Simulant B (3% acetic acid) - OM2 - 10 days / 40°C. 95% ethanol - 2 hours / 70°C followed by 10 days / 40°C.

The product contains substances with specific restrictions: Yes ☒ No ☐

Specific migration test: ☒ Complies with specific migration limits

For plastic products, all monomers and additives are listed in Annex I of EU Regulation 10/2011/EC. Where one or more substances are subject to specific restrictions, all limit values are met. The identity of these substances may be disclosed to the relevant authorities upon specific request and subject to confidentiality.

Additional information

The product contains "dual-use" substances: ☐ E551, E338
(Additives subject to food-related restrictions)

The product contains a functional plastic barrier: ☒

Traceability Traceability marking is adapted to each product and ensures that a rapid and effective withdrawal can be carried out.

This declaration is based on data and documentation received from the supplier and considered to be true at the time of printing. This data sheet is for guidance and applies to the product under normal and foreseeable conditions of use, in accordance with the stated food-contact, temperature and time limits.

This document is issued electronically and is therefore valid without a signature.
